PERSONAL PROJECTS

Portfolio (06/2018 – 06/2018)

- A simple portfolio (which I have built from the scratch as a rookie) that gives detailed description about me and my professional work. HTML5 and CSS3 have been used.

WhatsApp (07/2018 – 07/2018)

- Created a fully responsive design of WhatsApp which gives a basic layout idea for mobile and web application. HTML5, CSS3 and Bootstrap4 have been used for this basic application.

Pokemon Cards (12/2018 – 01/2019)

- Created a fully responsive website for displaying content of Pokemons in form of cards which retrieves data from a local API. HTML5, CSS3, Bootstrap4 and AngularJS have been used.

E-Commerce website (03/2019 – 03/2019)

- This is a fully responsive e-commerce website that displays different brands of watches. HTML5, CSS3 and Bootstrap4 have been used.
